

August 3rd, 2021 CMD Committee Report

- The Dickinsons donated \$1500 toward rock for the South Dam armoring--thank you!
- Ken Scutley built a boat rack for Bald Eagle Beach. We now have a good model and can build more to suit our needs. Minimizes the boat footprint on our shores. It is freestanding and does not affect shoreline or plants or wildlife.
- Ben Bersagel has offered to help rebuild the fishing dock that is sitting on the shore at Bald Eagle Beach
- We also discussed getting the Turtle Beach dock back and we need to contact the person who has that and get that going
- The frame from Kerry Wilson's trailer can be used by the lake for several projects and she has offered to store it there as well.
- Does anyone know if the toilets were cleaned today?
