

## **August 3rd, 2021 Firewise Committee Report**

- The trailer on Lot 1 is scheduled for asbestos removal next week, once the permits are approved. Then it should take about 10 days for a demolition permit
- Shortly before demolition day, we will have a clean up of Lot 1 and fence removal--right now it is the last week of August for demolition
- When helicopters are getting water out of the lake, clear the lake--no boats, no swimmers
- All of the Firewise information is available in the Community Center or in your Firewise packet
- Should there be a notice on the Reader Board to clear the lake when there are helicopters present?
