

Gary Long: Dams Report

Department of Ecology requiring these things of RLCA

- Elevation Survey: Will try to be done in 2021/2022
- Armor South Side of South Dam: Half done and will try to complete in 2021
- Monitor Seepage of at SE corner: Ongoing since 1999
- Monitor slumping at N. Dam road: Filled, ongoing monitoring
- Update O & M Manual: Completed for 2021
- Update EAP: Completed for 2021

Reminder: We need to open valve in lake annually to make sure all is working properly

Ratings for Dams: We are not rated as one of the worst dams in the state—in fact the DOE wants to know who is putting that information out from our community. The DOE is happy with our maintenance and the shape of our dams. We are doing a good job.

Security Report—Thank you to all for the responsible 4th of July with no fireworks, since we were in a high danger fire rating.
